ROOTED IN HERITAGE WITH A VISION FOR THE FUTURE.

OUR BRANDS

JBS is the world's largest food company and the world's largest protein food manufacturer. JBS conducts business in more than 20 countries and has established more than 500 factories or offices in these countries In 2023, JBS achieved net revenue of 72.9 billion US dollars.

JBS is a Brazilian multinational company with a history of 70 years, acknowledged as one of the worldwide food industry leaders with its headquartere in Sao Paulo.

JBS has a diversified product portfolio, with options ranging from fresh and frozen meats to prepared meals, com -mercialized through brands recognized in Brazil and other countries, such as Friboi, Swift, Seara, Pilgrim's Pride, Swift Prepared Foods, Plumrose, Primo, among others.

The Company also operates with correlated businesses, such as leather, Biodiesel, Collagen, Natural Casings for cold cuts, Hygiene & Cleaning, Metal Packaging, Transportation, and solid waste management solutions,recycling, innovative operations that also promote the sustainability ofthe entire business value chain.

OUR VISION

TO BECOME THE BEST AND MOST RESPECTED COMPANY IN OUR INDUSTRY, CREATING OPPORTUNITIES FOR A BETTER FUTURE FOR OUR TEAM MEMBERS.

Moy Park is one of the UK's top 15 food companies, Northern Ireland's largest private sector business with over 12,000 employees and is one of Europe's leading poultry producers.

With 12 processing and manufacturing units in Northern Ireland, England, France and the Ne -therlands, the company processes over 280 million birds per year, in addition to producing around 200,000 tons of prepared foods per year.

The Moy Park product portfolio includes fresh and added-value poultry, ready-to-eat and pre -cooked meals, breaded and frozen foods, beef and pork products, vegetarian foods and dess -erts, supplied to major food service establishments and B2B customers in the United Kingdom and Continental Europe, along with most of the major UK and Irish grocers.

US-based Pilgrim's Pride Corporation acquired Moy Park in 2017. Pilgrim's is a publicly listed company in the U.S., with 2016 annual revenues of US$7.9 billion, and is part of JBS USA. It is one of the leading chicken producers in the world, with over 40,000 employees.

Like Moy Park, Pilgrim's has a strong track record and commitment to driving growth. To learn more about Pilgrim's, please refer to the company's site: www.pilgrims.com

FARMER PARTNERSHIPS

Working with over 800 poultry farmers in the UK, local farming remains at our heart. We provide our farmers with the security they need to invest in sustainable farming methods, and work with them to deliver training and education, veterinary support, chick stock, planning and IPPC approval support, world class building design, feed and nutritional advice, along with on farm technical support to drive performance.

BROILER HATCHERIES

- Recent modernisation phase
- Newark Build & Ashbourne Extension
- Moving from 17 supply hatcheries to 4
- Industry leading biosecurity standards
- Continuous modernisation, automation & efficiency
- Dedicated fleet of chick delivery vehicles

MILLING

- 2 company nutritionists covering all diets and all generations
- Randalstown is Aviagen & Cobb approved GP feed supplier
- Producing GM and non - GM diets
- Highest quality ingredients and compliance

TECHNICAL

FOOD SAFETY. QUALITY. INTEGRITY. TRUST.

At Moy Park we take pride in the quality of the food we produce, and food safety is at the heart of our strategy - along with quality, integrity and trust.

With leading research and practices, we are shap -ing the future of food safety and quality with in our industry.

PRODUCT QUALITY

Quality is at the core of our business, with our tec -hnical team working to deliver consistent levels of excellence through:

COMMITMENT

to training & communication

IMPROVEMENT

Continuous improvement of processes and equipment

STANDARDS

Data analysis & KPIs to track product standards

BIOSECURITY

As a result of our integrated supply chain we can set a standard baseline of biosecurity across the agri estate.

FEED BIOSECURITY

Internal feed mills supported with approved and audited 3rd party mills

Dedicated transport for all Moy Park feed Segreg -ated raw material and finished product haulage in mill biosecurity, introduction of the broiler double barrier Aviagen approval in Moy Park Ra -ndalstown Mill

BIOSECURITY AUDITING

Every crop, every farm

Covers all basics from biosecurity signage to che -mical storage

RAG score based on overall audit

Biosecurity audit was instrumental in implementing our new Moy Park double barrier, a significant step-change in our broiler production biosecurity

CUTTING EDGE CAMPYLOBACTER RESEARCH INVESTMENT

Moy Park has invested over £1 million in cut -ting edge research and practices in to Cam -pylobacter reduction. Research projects have involved initiatives across 600 farms inNort -hern Ireland and England looking at in puts such as feed and water as well as biosecurity measures and stock management techniques. The company has invested substantially in its farms and processing facilities including implementing a training programme for over 200 farmers and catching teams, biosecurity monitoring and enhanced testing programmes based on robust scientific principles.

Moy Park has introduced a programme of pi -oneering on-farm testing that gives rapid feedback to farmers on the status of each flock via text message.

Moy Park was one of the first processors to promote the message 'No need to wash' front of pack sticker on all Moy Park branded whole birds.

Through Research and Development Moy Park has also developed an 'in line' factory interv -ention which reduces the levels of Campylo -bacter significantly. This intervention has been independently reviewed and is currently awaiting a patent.

INDUSTRY LEADING POSITION ON ANTIBIOTICS

Moy Park is committed to industry leading antibiotic stewardship. Our focus is on redu -cing the need for antibiotics by investing in our farms and practices, together with our veterinary experts, developing innovative animal health strategies to deliver the highest levels of animal welfare.

The company established an independent an -tibiotics stewardship programme in 2011. This programme is shaped and delivered by a multi-disciplinary team made up of leading academics, veterinary experts and company specialists in the field of poultry production and animal health and welfare.

GEOGRAPHICAL BIOSECURITY

With production and processing sites in both Northern Irelandand Great Britain, Moy Park has a stronger biosecurity position from a geographical point of view than any other major poultry producer in the UK.

SUSTAINABILITY

HEALTH & SAFETY. THE ENVIRONMENT.

At Moy Park we are committed to developing our business in a sustainable and ethical way.

This approach cuts across everything we do and everyone we deal with.

From our humble beginnings in Northern Ireland in 1943 we have worked closely with our customers, suppliers, government bodies and the local comm -unities in which we operate in order to make a positive contribution.

AWARD WINNING HEALTH & SAFETY

Moy Park were proud to be the winner of the pre -stigious Food and Drink Health & Safety Award for the third year in a row in recognition of outst -anding Health & Safety performance at the 2017 RoSPA H&S Awards.

Moy Park Convenience was a winner with merit in the 2017 British Safety Council International Safety Awards.

SAFETY INITIATIVES

Moy Park have launched the 'All for One' campaign to encourage the reporting of hazardous observa -tions, and safety improvements and suggestions, as they work to create a world class safety culture.

RoSPA Health & Safety Awards RoSPA Winner

BRITISH SAFETY COUNCIL International Safety Awards 2017 Winner
