About Seara

Founded in 1956, Seara is

a solid global company

that offers high-quality chicken products and a complete portfolio to more than 150 countries. Constantly investing in technology, quality and innovation, Seara grows year after year while maintaining its commitment to sustainability and animal welfare.

+70 years of production excellence!

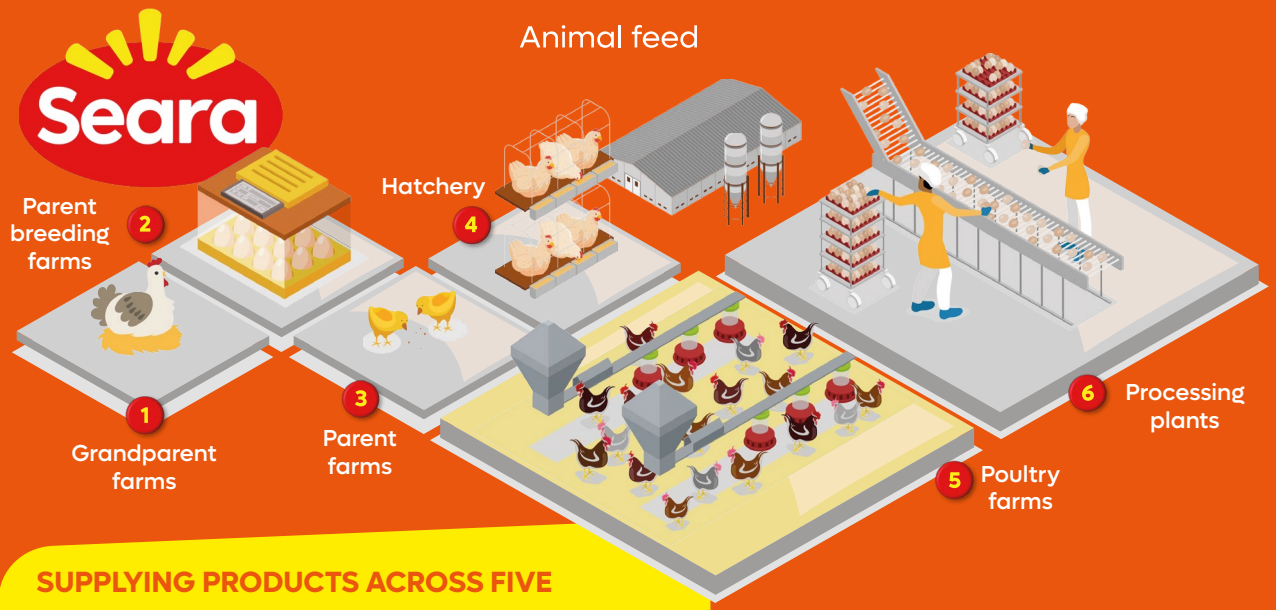

- Ideal Farm Conditions
- Small Family Farms
- Farms Close to Plants
- Full Traceability
- 100% Vegetarian Feed
- High Animal Welfare

Production Chain

Seara offers ideal farming conditions, with small family farms located close to the plants, as well as integrated systems ensuring

full traceability from farm to fork.

QUALITY CONTROL FROM THE BEGINNING OF THE POULTRY CHAIN

Sustainability

Our Global Sustainability Strategy is rooted in promoting responsible practices across the greater agricultural food system.

This strategy mirrors our value chain connections, addresses our material sustainability topics, and serves as the overarching framework from which all our sustainability programs and initiatives are developed.

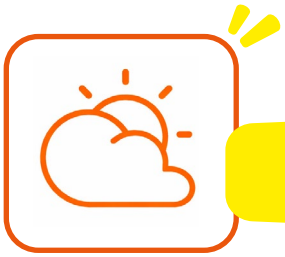

Animal Welfare

Seara focuses on delivering quality products due to our production excellence, high animal welfare and sustainability practices, which follow the Five Domains & Our Animal Welfare Aims.

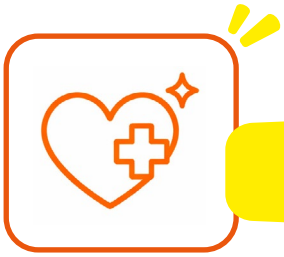

1. GOOD NUTRITION

Give animals the right amount and the right quality of fresh water and food to suit their needs and keep them happy.

2. GOOD ENVIRONMENT

Give animals the environment they need, which means a suitable place to rest and get shelter, and which is not stressful or gives them a negative emotional experience.

3. GOOD HEALTH

Try to prevent any disease or injury, and if it does happen, have it treated quickly and as stress-free as possible.

4. APPROPRIATE BEHAVIOUR

Give them enough space, proper facilities, and opportunities to make their own decisions.

The company frequently develops specific checklists for quality control of production plants to evaluate the indicators of Animal Welfare. The document is based on the current legislation and the recommendations of World Animal Protection, in addition to observing customer requirements and certifications.

5. POSITIVE MENTAL EXPERIENCE

Try to eliminate or reduce negative emotional experiences and provide them comfort with positive emotional experiences.
